Cara Kompilasi Program

Build Web UI

Kompilasi untuk web ui menggunakan npm dan menjalankan paket webpack.

```
cd ./ui/web
npm install
npm run build
```

Hasil proses build webpack berada di directory dist.

Kompilasi Go

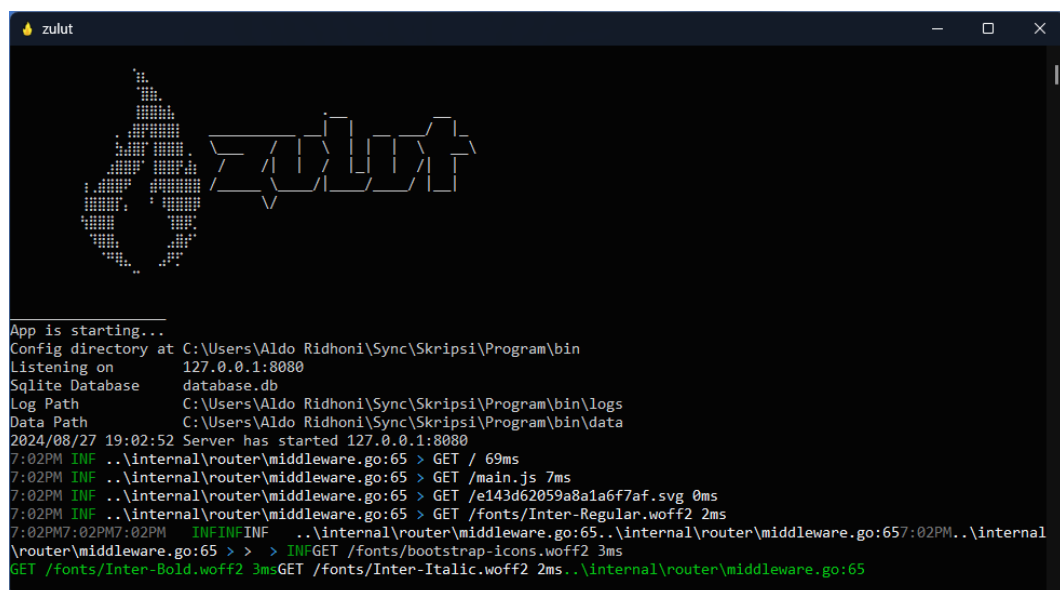

Kompilasi go menggunakan perintah berikut:

```
cd [Program root directory]
go get
go build
```

Hasil build berada di /bin/go_build_Program.exe

Eksekusi

Setelah berhasil kompilasi tanpa error, untuk menjalankan langsung buka file hasil build.
