

LAMPIRAN

1. Cara Menjalankan Program

Berikut merupakan langkah langkah yang dapat digunakan user untu menjalankan website.

- Kunjungi <https://proshop-v2-90mo.onrender.com/>
- Jika belum memiliki akun daftar akun dengan memasukan nama, email, password dan konfirmasi password.

The screenshot shows the registration page of the ProShop website. The page title is "Kain Ulos Batak" and the URL is "proshop-v2-90mo.onrender.com/register/redirect/". The page contains a "Register" form with the following fields: Name (Enter name), Email Address (Enter email), Password (Enter password), and Confirm Password (Confirm password). There is a "Register" button and a link for "Already have an account? Login". The footer of the page says "ProShop © 2024".

- Jika sudah memiliki akun, bisa langsung melakukan login, dengan memasukan email dan password

This is a duplicate of the screenshot above, showing the registration page of the ProShop website. The page title is "Kain Ulos Batak" and the URL is "proshop-v2-90mo.onrender.com/register/redirect/". The page contains a "Register" form with the following fields: Name (Enter name), Email Address (Enter email), Password (Enter password), and Confirm Password (Confirm password). There is a "Register" button and a link for "Already have an account? Login". The footer of the page says "ProShop © 2024".

- Halaman utama ketika user berhasil melakukan *login*.

- Pilih produk yang ingin dibeli, maka akan ditampilkan detail dari produk, Klik keranjang jika ingin membeli produk.

- Maka akan menampilkan halaman keranjang, klik bayar jika ingin melakukan transaksi

- Maka akan menampilkan halaman pengiriman, disini user mengisi data alamat lengkap dan hal pendukung untuk mengantar barang lalu klik lanjutkan.

- Maka akan menampilkan halaman ringkasan pesanan

- Maka akan menampilkan halaman pembayaran, Klik bayar.

- Maka akan menampilkan halaman *pop-up*, lalu pilih metode pembayaran yang diinginkan.

- Maka akan menampilkan alamat *virtual account*, user bisa membayar kealamat itu
